TEARING DOWN FREE TRADE ARGUMENTS.

It is very interesting to note the attempt of Roger Q. Mills, of Texas, to establish facts in his article on free trade in the February North American Review. He still insists, as Mr. Cleveland has frequently done, that the entire duty on imported articles is added to the price of produced products in the United States. This statement is as old as the contest between protection and free trade, and yet neither in the tariff debate in congress three years ago, nor in any of Mr. Cleveland's speeches, have any illustrations been given to prove that the statement is true. Free traders always make the statement, but in all cases it has been refuted. Mr. Mills, like Mr. Cleveland does not deal in history in the effort to prove his case. History would demolish his arguments completely, and therefore he relies on a general statement without proof.

But the Bulletin, which deals in office figures touching the production, the consumption, the importation and the prices of iron and steel, takes steel rails with which to wreck the statements of Cleveland and Mills. The figures of the Bulletin are well worth studying for they overwhelmingly refute the ancient statement of free traders that the amount of the duty is always added to the selling price of a protected article in this country. The Bulletin submits from official data prices of steel rails each year in this country and in Great Britain, with the quantity produced in the United States. In the years 1867-1870, inclusive, the duty on rails was 45 percent ad valorem, thence to August 1, 1872, it was 25 percent; thence to March 3, 1875, it was 25 percent; thence to July 1, 1883, it was 25 percent, and since that time has been 17 percent. This duty is to be added to the British price, and also the cost of transportation, commissions and insurance, which the Bulletin reckons at 3 percent, though it is in almost every instance larger. As duties and freight have to be paid in gold, there must also be added, for comparison with American prices in currency, the premium on gold for the earlier years, which averaged 2 percent in 1878, 5 percent in 1877, 10 percent in 1879, 14 percent in 1875, 12 percent in 1872, 13 percent in 1873, 12 percent in 1874, 13 percent in 1875, 12 percent in 1876, 13 percent in 1877, 12 percent in 1878, 13 CHANGING POSITIONS.

Some time ago Mr. A. P. Burnham, the local agent of the American Express Company, handed in his resignation, to take effect on March 1st, in order that he might accept the position of teller in the Rock County National Bank.

The resignation was accepted, and the company appointed Mr. Charles P. McLean, of Milwaukee, as his successor.

Mr. McLean arrived in the city last evening, and this morning took formal possession of the office, relieving Mr. Burnham.

The position of teller in the Rock County National Bank was made vacant by the election of Mr. Wm. Heller treasurer of the Janesville Cotton Manufacturing Co., on the assumption of the duties of that office on the first of the present month.

All these gentlemen are well known in Janesville. Mr. Heller has been for many years connected with the Rock County National Bank, is a young man possessing excellent business qualifications and the fullest confidence of the public.

Mr. Burnham came to this city about six years ago and took charge of the American Express Co.'s office as the local agent. He immediately gained the confidence and good will of our people, becoming one of our most popular business men. Upon the organization of the Janesville Building, Loan and Savings Association, he was elected secretary, a position which he will continue to hold. That he will meet all requirements in his new position there are none to doubt.

Mr. McLean, the new agent, is an old Janesville boy, being a son of Mr. and Mrs. G. C. McLean, center of our city, and has been in the employ of the express company in various capacities for several years. The Gazette takes pleasure in speaking a kind word for all three gentlemen, and wishing them continued success.

FACTS WORTH KNOWING.

In all diseases of the nasal mucous membrane the remedy must be non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with douches, snuffs, powders or ointments because they are all irritants, do not thoroughly reach the affected surfaces and should be abandoned as worse than failure. A multitude of persons who had for years borne all the worry and pain that external can inflict, turned to radical cures wrought by Ely's Cream Balm.

OLIVER CROMWELL.

President Eaton's Lecture Last Evening at the Congregational Church.

Last evening President E. D. Eaton, of Beloit college, delivered a lecture on "Oliver Cromwell," at the Congregational church, the lecture being one of the entertainments of the People's Lecture Course. There was a very good sized audience present, notwithstanding the extreme cold. While not being a very fluent speaker, or an orator of the "Roman-and-Fellow-Citizens" order, he proved himself and able and instructive lecturer. The manner in which he treated his subject evidenced that he had bestowed much study in its preparation, and his hearers were well repaid in new information gained concerning one of the most prominent actors in the most interesting period of English history, and of our government.

Jas. S. Murphy, M. D., Company's Shop, N. Y., writes: "I sell a great deal of Dr. Bull's Eye Salve, for every one who tries it likes it."

"There are more things in heaven and earth, Horatio, than are dreamt of in your philosophy." Of course! Why, those old doctors offered horribly with aches and pains and didn't know that Salvation Oil would cure them.

Death of Mrs. Garry.

Mrs. Rosa Garry died at her home in the fourth ward last evening at eight o'clock, after a long illness.

She had been sick for some time, and had been bedridden for several weeks. She was a native of Ireland, and was a member of the Catholic church.

The funeral will be held from St. Mary's church at 10 o'clock Saturday morning.
